"A Theory of the Formation of Catalytic Active Groupings on Sur-  
faces -- I"

N. I. Kotozev

"A Theory of the Formation of Catalytic Active Groupings on Sur-  
faces -- II. The Application of <sup>the</sup> Theory to the Synthesis  
of Ammonia and the Catalytic and Electrocatalytic Hydro-  
genation of the Ethylene Bond"

N. I. Kotozev and L. L. Klyachko-Gurvich

Moscow

State University

Laboratory of Inorganic Catalysis

Received 29 May 1938

"The Coagulating Action of Alcohols on Solutions of Albumen, and  
Traube's rule"

S. S. Vasil'yev

Moscow

VIM, Chemistry Department

Division of Organic Chemistry

Received 3 June 1938

"The Decomposition of Nitrides of Iron with Bombardment by Slow  
Electrons"

N. I. Nekrasov, A. V. Bondarenko, and P. M. Mal'tseva

State University

Moscow

**NIIF, Laboratory of Thermophysics**

**Received 22 June 1938**

**"The Coagulation of Hydrophobic Sols with Mixtures of Electrolytes--**

**1. The Coagulation of a Negative Sol Agd with mixtures  
of Potassium Salts and of Multivalent Metals"**

**L. K. Lepin' and A. V. Bromberg**

**Received 27 May 1938**

**"The Coagulation of Hydrophobic Sols with Mixtures of Electrolytes --**

**II. A New Method of Evaluating the Antagonism of Ions dur-  
ing coagulation"**

**L. K. Lepin' and A. V. Bromberg**

**Received 27 May 1938**

**"The Surface Activity of Hydrophilic Colloids"**

**K. F. Zhigach and P. A. Rebinder**

**Moscow**

**Colloido-Electrochemical Institute, Academy of Sciences USSR**

**Division of the Physico-Chemistry of Dispersion Systems**

**received 21 May 1938**

**"Gas-Vapor Solutions at High Pressures"**

**I. R. Krichevskiy and N. Ye. Khazanova**

**Moscow**

**Nitrogen Institute**

**Received 3 June 1938**

**"The Question of the Pressure of the Saturated Vapor of Two Vola-  
tile Liquids Mixed in Any Ratio"**

**N. D. Litvinov**

"Experimental Proof of U. Stern's Theory of the Double Layer"

U. Yesin and B. Markov

Sverdlovsk

State University

Laboratory of Electrochemistry

Received 22 July 1938

"The Activation Process and the Nature of the Active Centers in  
Electrocatalytic Hydrogenation"

V. V. Monblanova, N. I. Kobozev, and P. S. Filipovich

Laboratory of Inorganic Catalysis, MFC

Chair of General Physical and Colloidal Chemistry of the Second

Medical Institute

Received 24 June 1938

"The Supertension of Hydrogen over Lead"

B. Kabanov, S. Filippov, L. Nanyukova, Z. Iofa, and A. Prokof'yeva

Physico-Chemical Institute imeni L. Ya. Karpova

Received 21 July 1938

"Electrocapillary Curves in Non-aqueous Solution -- I. Capil-  
lary-Active Organic Cations in methyl Alcohol"

A. Murtaazayev and M. Abramov

Tashkent

Central-Asiatic State University

Laboratory of Physical Chemistry

Received 3 August 1938

"The Electrical Conductivity of the molten system  $KCl - MgCl_2$

A. S. *Shatenshteyn* and E. *Marshev*  
Sverdlovsk UNIKhLM

Laboratory of Electrochemistry

Received 17 July 1938

"A Study of Conditions of the Combustion of Gas Mixtures -- XIV.

The Influence of the Amixture of Acetone on the Cold and

Hot Flame of Butane"

V. I. Avramenko and M. B. Neyman

Leningrad

Institute of Chemical Physics

Laboratory of the Oxidation of Hydrocarbons

Received 19 August 1938

"The Acid-base Indicators in Solvents with Different Acid-base

Properties"

A. I. Shatenshteyn

Moscow

Physico-Chemical Institute imeni G. Ya. Karpov

Laboratory of Combustible Gases

Received 22 June 1938

"The Equation of State for Gaseous Mixtures"

I. R. Krichevskiy and Ya. S. Kazarnovskiy

Moscow

State Institute of Nitrogen

Received 24 June 1938

"On Solutions of Metallic Cadmium in Molten Chlorides"

S. Karpachev and A. Stromberg

Sverdlovsk

Ural Physico-Technical Institute

Laboratory of Electrochemistry

Received 28 July 1938

"The Mechanical Properties of Monolayers of Aliphatic Acids, Alcohols, and Esters and the Influence on them of the Acidity and the Cations of the Lining Puckladi"

A. A. Trapeznikov

Moscow

Academy of Sciences USSR

Physics Institute imeni L. N. Lebedev

Laboratory of Molecular Physics

Received 28 July 1938

"On the Influence of Acetone on the Size of the Change in the Polarization Level of Tartaric Acid and on the Rate of Chemical Reaction between it and Ethyl Alcohol"

A. P. Trofimenko and S. F. Babak

Samarkand

Uzbek State University

Received 25 July 1938

"The Toxic Effect of Catalysts from the Point of View of the Specificness of the Active Centers -- X. The Orientation of Alcohols of the Homologous Series  $C_nH_{2n+2}O$  on Copper"

A. Kh. Bork

Moscow

Chemico-Technological Institute imeni D. I. Mendeleev  
Laboratory of Physical and Colloidal Chemistry

Received 21 July 1938

"The Question of the Passiveness of Iron -- I. The Kinetics of  
the Dissolution of Iron in Nitric Acid"

M. S. Golombik, M. M. Levina, and N. N. Petin

Moscow

State University

Laboratory of Chemical Kinetics

Received 10 July 1938

"The Dependence of Concentration on Internal Friction in Molten Salts"

A. G. Stromberg

Sverdlovsk

Ural Physico-Technical Institute

Laboratory of the Electrochemistry of Molten Salts

Received 8 July 1938

"The Stability of Silver Iodide in the Presence of Gelatine"

I. R. Protas

Leningrad

State Optical Institute

Laboratory of Scientific Photography

Received 24 June 1938

Vol XIII, No 4, 1939

"The Concentration of the heavy Isotope of Oxygen with the Dis-  
tillation of Water and an Isotopic Analysis of the Water"

A. I. Brodskiy and O. K. Skarre

Dnepropetrovsk

Chemico-Technological Institute  
Laboratory of Physical Chemistry  
Institute of Physical Chemistry imeni L. V. Pizharovskiy, Academy  
of Sciences Ukrainian SSR  
Division of the Chemistry of Isotopes  
Received 1 July 1938

"On the Question of the Mechanism of the Formation of Nitric Oxides  
during the Explosion of Combustible Mixtures"

A. G. El'kenbard, P. I. Genkina, and M. V. Polyakov  
Dnepropetrovsk

Institute of Physical Chemistry imeni Pizarzhevskiy
